PROFESSIONAL SUMMARY

Full-stack developer with over 4 years of experience designing and developing scalable web applications using modern technologies such as the MERN stack. Adept at building high-performance solutions with a strong focus on user experience, security, and cloud deployment. Proven ability to solve problems, collaborate effectively in teams, and deliver impactful projects on time.

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS
Frameworks & Libraries: Node.js, React, Redux, Zustand, Bootstrap, Tailwind CSS, Express
Tools & Technologies: Git, GitHub, Firebase, REST APIs, GraphQL, WebSockets, Stripe, Serverless, AWS, Google Cloud
Databases: MongoDB, MySQL, PostgreSQL
Testing: Jest
Development Practices: Agile (Scrum), Microservices, Pair Programming, Code Reviews

PROFESSIONAL EXPERIENCE

MERN FULL STACK DEVELOPER July 2022 – Present

Spericorn Technology pvt. Ltd, Trivandrum, Kerala, India

- Led full-stack application development using React, Node.js, MongoDB, MySQL, and PostgreSQL for production environments.
- Designed and implemented microservices using REST APIs, WebSockets, and GraphQL to improve scalability and maintainability.
- Implemented authentication and authorization using JWT, OAuth2, and role-based access control to enhance application security.
- Migration of legacy systems to modern web architectures with minimal downtime.
- Mentored junior developers, conducted code reviews, and enforced coding standards to improve code quality.
- Collaborated with DevOps, QA and product teams within Agile (Scrum) development cycles to deliver features on schedule.

Backend Development (Node.js)

- Developed high-performance backend services using Node.js, Express.
- Improved response times using Redis caching and optimized SQL and NoSQL queries.
- Secured APIs by implementing rate limiting and safeguards against XSS and SQL injection attacks.
- Wrote unit and integration test cases using Jest to validate business logic and API endpoints.

Frontend Development (React)

- Developed responsive and accessible user interfaces with React, Tailwind CSS, and Bootstrap.
- Built reusable components and custom hooks using an atomic design approach, applying consistent design patterns and improving component maintainability.

- Implemented scalable state management using Redux and Zustand.

TELECOM ENGINEER 2020 – 2021

IMMCO Software Solutions Pvt. Ltd., Kakkanad, Kochi, India

- Created and updated telecom network layouts and infrastructure drawings using AutoCAD.
- MapInfo was used to analyze, visualize and maintain geospatial data related to telecom network planning.
- Assisted in network design, site mapping, and coverage analysis to support activities.

PROJECTS

MONEY LENDING PROCESSING TOOL

Tech: Next.js, Node.js, TypeScript

- Developed frontend and backend workflows for a financial lending platform, integrating third-party banking and payment services.
- Integrated Actum and Mercury APIs for secure bank connections and payment processing workflows.
- Integrated LendSaaS APIs to retrieve merchant information and syndicate ratings, with proper API response and error handling.

BORROWING PLATFORM

Tech: React, Node.js

- Developed a web platform for managing item borrowing, returns, availability and lending activities.
- Built user and administrator dashboards with role-based access to manage borrowing and return workflows.
- Implemented backend APIs and real-time status updates to maintain accurate item availability and return status.

SCHOOL MANAGEMENT PLATFORM

Tech: Next.js, Node.js

- Developed a multi-role school management platform supporting administrators, schools, parents and students.
- Implemented role-based portals and protected routes to control access to application modules.
- Developed frontend-backend API integrations and authentication workflows for secure user access.

ERP TOOL – Revamp

Tech: React, Node.js, GitHub GraphQL API, AI

- Revamped HR and administration modules to improve functionality, maintainability and user experience.
- Integrated GitHub GraphQL API to retrieve employee pull requests and display PR details such as changes, status and review information.
- Developed a PR analysis feature that uses AI to evaluate pull requests and generate quality scores based on the submitted changes.

EDUCATION

Diploma in Computer Engineering 2017 – 2020

Government Polytechnic College, Kalamassery, Kerala, India

GPA: 8.30
